Working with people for better outcomes

Be slow and steady: don't rush people to make decisions or to do it your way.

Be prepared to talk to everyone, listen carefully.

Meet with people where they are comfortable (sitting outside store, in creek bed, on their verandah – meetings don't have to be in meeting rooms) – privacy.

be approachable, allow people to know where to find you and how to contact you.

Use properly identified interpreters.

Use plain English not pigeon.

Remember people are busy and have family commitments, work and voluntary responsibilities, cultural obligations and other **MEETINGS**.

Our Guiding Principles:

Respect each other and follow the law straight - conciliatory - peaceful and calm - kind-hearted-united – strong
